

Grayzel Remarks – SUPPLEMENTARY COMMENTS

Township Committee Meeting

8/1/2012

Mr. Mayor, I must address Mr. Sisler's comments. While I am tempted to follow Mr. Sisler into the depths of where he has attempted to take this body, I will not do so. I am glad that Mayor Mancuso chose not to either.

It is now clear to all here of Mr. Sisler's own partisan nature that he attacks my wife and questions if she has an personal agenda due to her departure from Honeywell while not turning to his left [to Mr. Rosenbush] and asking the same question.

Being the political operative that Mr. Sisler is in that he works for the Bucco family, he is surely aware of the demographics in Morris Township. He knows that Democrats are a minority in Morris Township so the only way that I could get elected was with the significant support of republican voters. I believe they did this because they know that I do represent everyone in our town, not just one constituency. I promise everyone that I will continue to be a voice for all of you.

I am deeply disappointed in the words Mr. Sisler has chosen tonight, and fear the taint I believe he has now brought to this body.
